# COBOT**KIT**
## For LightWELD Series

### APPLICATIONS:

- Metal fabrication shops
- Auto body applications
- Maintenance and repair
- Construction and piping
- Farm, furniture & appliances
- Aerospace & transportation

### INCLUDES:

- Cobot connection cable
- Cobot gun holder
- Automation software update Cobot for LightWELD
- Control of the programs via TCP/IP
- User guide

The **Cobot Integration Kit** allows seamless operation of the LightWELD device with a customer-installed cobot. The kit includes two key components: a weld head holder that attaches to the cobot, and an adapter cable enabling the LightWELD to function within a cobot application. It also includes the appropriate software update for LightWELD.
